Handouts & certificate emailed to attendee after class. ***hours can be used to meet the mandatory code class for your SECOND Gasfitter's license renewal.**

Please note that when you receive the registration link in your email box that it is not the link to the webinar. Please open this link ASAP, fill out the registration and send it back. You will then be sent another link that is the actual link to the webinar.

All webinars must be attended at the date and time given. They cannot be bought and viewed at will. We hope to have the capability to do this at some point but for now attendance at the given time and date is required.

Because we are getting very few people to sign up for actual classroom seminars, those who would like to come in and watch the webinar broadcast live in our classroom on the big screen can make arrangements with Randal to attend. Randal will be doing the broadcast live so anyone wishing to come in will have to agree to be quiet throughout the broadcast. Regular webinars fees will be charged to attend.

A Minimum class size of 7 people is necessary for the class to run. All classes will have food & drink provided unless otherwise stated. All classes will be in the Perry Haymann Memorial Training Room at our 171 East Hollis St., Nashua, NH location and start at 5:30 PM and end at 8:30 PM, unless otherwise stated, except Saturday morning testing which start at 8 AM. Call, fax, or ask at counter for more details and sign up sheet.

Seating is limited and will be filled on a first come, first paid basis. If more than one person is attending, please duplicate this form as necessary and make *checks payable* to Total Air Supply. * Applies to non-account holders only.
