=====

Derry Classroom - Daikin Mini/Multi Split Service & Troubleshooting – April 27th and 30th, 2026 from 5-9 pm – FREE

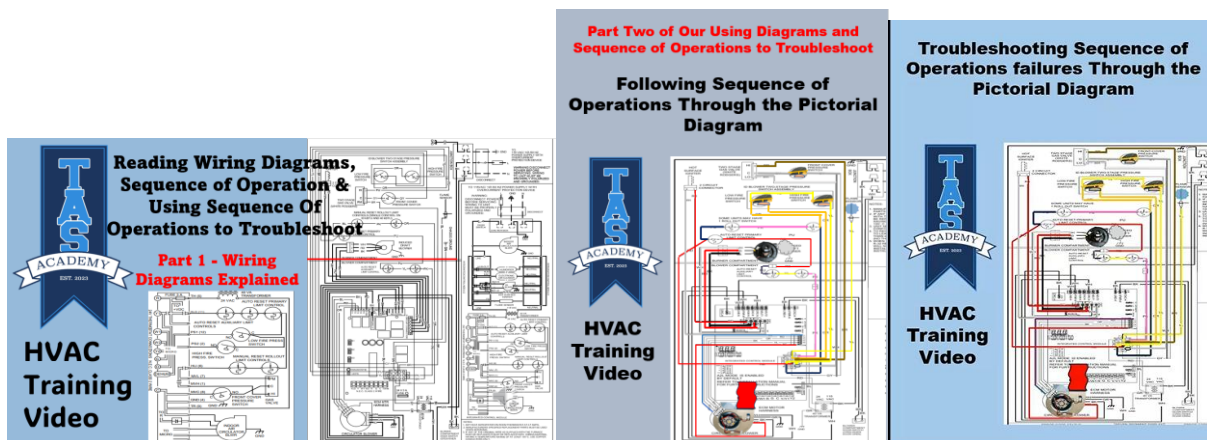

Attendees will learn the operation and functionality of the components of a Daikin Ductless system that control the system, use the Daikin D-Checker, software that allows monitoring and/or recording the operational data of Daikin Mini/Multi Splits and the Daikin Tech Hub app to apply proper troubleshooting techniques for the single and multi-split systems to apply proper utilization of the tools required to troubleshoot single and multi-split systems.

=====

Nashua Classroom: 4-Night Air Conditioning Boot Camp May 6th, 7th, 13th & 14th, 2026 from 5:30 to 9:00 pm \$200 – *This 4-evening seminar* will explain the Refrigeration Cycle, the foundation of comfort cooling. We will discuss the importance of why technicians need to understand superheat, sub-cooling, amp draws, temperature splits, evacuation, leak checking and airflow's role in the process. The class also covers R-410A, R-32 & R-22 Replacement Refrigerants, components of the system, a few different installation scenarios, start-up procedures, and basic troubleshooting with your meter, temperature probes and diagnostic sheets you will be receiving. Testing AC components with electrical meters will be done hands on. On the last night of the class, we will do a start-up on a live split AC system. *This class contains an incredible amount of information so pdf files will be given of the presentations for further review at the attendee's leisure.
